

**M.Sc. ASC & M.Sc. SCS**  
**Laboratory Courses**  
**Winter Semester 2022/2023**

**Important:** To take a laboratory course, please contact the respective professor and arrange with him/her specific dates. Usually you are required to write a report for your laboratory course. For formally registering for the course, please electronically send the so-called „yellow sheet“ to the Office of Study Affairs. You can ask for the form in that same office at studienbuero@chemie.uni-leipzig.de.

P Laboratory Course Bioorganic Chemistry (Receptor Biochemistry)/ 11-121-1116 /Prof. Dr. Beck-Sickinger

Group A 28.11.-16.12.2022

Lab 6 - Brüderstraße 34

Group B 04.01.-20.01.2023

Lab 6 - Brüderstraße 34

Groups A & B: specialization upon appointment

Pre-requisite:

You need to participate in the lecture and seminar Receptor Biochemistry (module 13-122-1121) or Bioorganic Chemistry (11-121-1112)

Registration: Please contact Prof. Dr. Annette Beck-Sickinger

P Advanced Practical Course in Structural Analysis/ 13-121-0122 / Prof. Dr. Matysik

P Advanced Practical Course in Concentration Analysis/ 13-121-0123 / Prof. Dr. Belder

P Advanced Practical Course in Trace Analysis/ 13-121-0126 / Prof. Dr. Reemtsma

P Laboratory Course in Inorganic Chemistry / 13-121-0215 / Prof. Dr. Krautscheid

P Laboratory Course in Organometallic Chemistry / 13-121-0216 / Prof. Dr. Hey-Hawkins

P Laboratory Course in Functional Materials / 13-121-0217 / Prof. Dr. Kohlmann,  
Contact (winter semester 2021/22): Dr. André Götze

P Laboratory Course in Supramolecular Coordination Chemistry / 13-121-0218 /  
Prof. Dr. Kersting

P Laboratory Course Advanced Synthetic Organic Chemistry / 13-121-0313 /  
Prof. Dr. Schneider

P Laboratory Course Catalytic Methods in Organic Chemistry / 13-121-0315 / Prof. Dr. Zeitler

P Laboratory Course Organic Chemistry / Chemical Biology / 13-121-0316 / Prof. Dr. Berg

P Vertiefungspraktikum Biomimetische Katalyse / 13-121-0326 / Prof. Gulder

P Advanced Practical Training: Investigation of Reaction Kinetics and Structure / 13-121-0417  
/ Prof. Abel

P Laboratory Course: Surface and interface analysis of solids and layered systems /  
13-122-0418 / Prof. Dr. Denecke

- P Research Practical Course on the Characterization of Gas Phase Clusters and Liquid Interfaces/ 13-121-0419 / Prof. Asmis, Dr. Reichelt
- P Research Practical Course in Heterogeneous Catalysis / 13-121-0514 / Prof. Dr. Gläser
- P Research Practical Course in Chemical Reaction Engineering / 13-121-0515 / Prof. Dr. Enke
- P Research Practical Course Theoretical Chemistry / 13-121-0631 / Prof. Tonner-Zech
- P Practical Course in Bioanalytics / 13-121-1114 / Prof. Dr. Hoffmann
- P Practical Course in Recombinant Protein Expression / 13-121-1115 / Prof. Dr. Sträter
- P Research Practical Course Crystallography in Materials Science / 13-121-1311 / Prof. Dr. Oeckler
- P Research Practical Course on Environmental Chemistry / 13-121-1415 / Prof. Dr. Schüürmann
- P Laboratory Course in Modern Drug Discovery / 09-121-1501 / Prof. Meiler
